

**To Whomsoever It May Concern**

We had selected M/s Omni-Net Technologies Pvt. Ltd. through e-tender for developing an interactive Web Portal namely '**DigiShakti**' and two Mobile Apps namely '**DigiShakti Mapper**' & '**DigiShaktiAdhyayan**' through which the automation of the complete process i.e., capturing the students' data by Institutions, pre & post-distribution activities along with pushing of learning content to the students could be seamlessly executed for the successful implementation of "**Tablet and Smartphone Distribution Scheme 2021-22**" for benefitting the youth studying in Uttar Pradesh.

Executing this complex project under tight timelines was a huge challenge for the UP Government and number of unexpected issues arose throughout the course of execution which had to be dealt with. Despite all the obstacles, the team at Omni-Net provided the right technical expertise and a vision to keep moving forward.

The quality of work, workmanship, impeccable problem solving skills and their round the clock availability helped us in getting the project executed successfully and in time.

We are satisfied with the proactive and competent team of Omni-Net deputed for this project. We would like to endorse their quality, expertise, and professionalism and would recommend them for any future projects.
