TESTIMONIAL

Last year in 2012 when Bundelkhand Institute of Engineering and Technology, Jhansi became an Autonomous University we felt the need for Automation of various activities related to Student's Registration, Subject master creation and updation, Faculty Registration, Examination, Result Processing and Certificate Printing.

The team at Omninet displayed extremely impressive job on the quality of work and the attention to detail throughout the entire development process.

The Web based software helped us to automate various process which otherwise would have been very difficult to manage.

We have found the quality of their work, their customer service, and their well-rounded staff to be top-notch. Additionally, Creative responsiveness and timely completion of tasks is unparalleled.

We extend them our best wishes & hope to have a continuous, excellent association with them in future also.

Thanks & Regards

For

V. G. Prasad

Dean Academic

Bundelkhand Institute of Engineering and Technology,

Jhansi
