## TESTIMONIAL

We wanted a Marine Job Portal and a CMS based website for our Institute with Web based software Application for Admission, Fee Management, Course, Administration, Certificate Printing, SMS Communication integrated with the website.

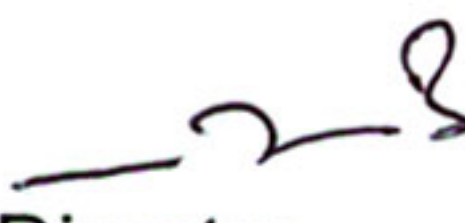

The team at Omninet displayed extremely impressive job on the quality of work and the attention to detail throughout the entire design & development process. Their ability to create professional and uniquely beautiful CMS based website from a bunch of text and photos we gave them was especially impressive.

The Web based software helped us to automate various process which otherwise would have been very difficult to manage.

We have found the quality of their work, their customer service, and their well-rounded staff to be top-notch. Additionally, Creative responsiveness and timely completion of tasks is unparalleled.

I would like to wish them best of luck and keep up the good work!
